**PROGRAM ON PRACTICAL
APPROACH TO METHOD
VALIDATION**

@Bangalore

on 17th July 2015 - Friday

What is Method Validation ?

Method Validation (MV) is all about Error Assessment.

Medical labs need to verify the test methods to assess error % of the method followed for better results interpretation.

Lab professionals will be trained to carry out MV studies in their labs with ease & understanding through this session

Why Method Validation Necessary?

**Method validation studies are
mandated by Medical Lab
Accreditation programs
(NABL or CAP) .**

**They are useful to assess
'error' or 'variation' in the
test methods followed by labs**

Workshop Take Aways

Components of MV Studies

Planning MV experiments

When & Why MV studies

Accreditation requirements

Usage of Statistical Tools
